## **MULTI-PATIENT MOTOR VEHICLE COLLISION**

On Thursday, December 1, 2022, at 4:50pm, the South Elgin & Countryside Fire Protection District responded to the intersection of McLean Blvd and Spring St for a motor vehicle collision with injuries. Crews were on scene within two seconds of the dispatch and discovered two vehicles with moderate damage in the middle of the intersection. The initial assessment was a total of three injured patients. The incident was upgraded to a working EMS incident which brought two additional ambulances to the scene.

There was a total of five patients that were treated and only one patient was treated, with non-life threatening injuries to Provena St. Joseph Hospital. Because the incident committed all South Elgin Fire District resources, the St Charles Fire Department sent one ambulance and the Geneva Fire Department sent one engine to staff the South Elgin stations during the incident. Upon completion of patient care and transport, the scene was turned over to the South Elgin Police Department.
